

THE CONFERENCE

In 2014 NATURA-ECON conference is going to be organized for the fourth time, held as an international conference for the first time. The Conference NATURA-ECON 4 is entitled: Environmental Dynamics under the Impact of Economic Trends – Realities and Perspectives. Due to the multidisciplinary character of the event, economists, environmental scientists and mathematicians - from higher education and research institutes - are welcome to share their recent findings in one of the various sections of the conference: economics; environment; finance, accounting and international trade; management, marketing and tourism; mathematics, statistics and informatics.
